

Vision Technical Group wants your business!

As a fast growing Lighting and Audio production company, we are looking to expand our rental services. We have an exceptional inventory of ETC Dimming and conventional fixtures, Martin and High End intelligent lighting instruments, as well as consoles by ETC and WholeHog. Vision Technical Group boasts one of the areas largest and most complete rigging inventories for any of your support needs.

We are pleased to announce the addition in our inventory of *Staging Concept's* portable staging decks. These affordable decks come in heights ranging from eight inches to just over four feet.

We also offer a wide range of audio equipment from EAW and JBL speaker systems, to Yamaha and Soundcraft Mixing consoles. Systems range in size from small self contained packages, to large format concert systems.

Our primary concern is your satisfaction for any size rental. From the smallest system rental to the largest full production package, you will get a superior level of service and product.

Repairs?

Vision Technical Group offers a fully staffed Repair Department to handle all your down equipment needs.

Whether you choose our in house services or require an on site repair, we will be happy to accommodate you.

We offer custom cable assembly for all your power, control, and audio cables.

Emergency service is also available.

Equipment Sales?

Feel free to call for a price quote on new and used equipment.

Vision Technical Group wants to be your single source provider of all your lighting and audio gear.
